INDEX 1975

HOW TO USE INDEX

In the master index on the next two pages, articles are listed alphabetically by title and are numbered consecutively. The cross-index by author or subject on this page refers to the number of the article in the master index.

Example: Pensions, 40

No. 40 in the master index will give the title, page and month for the article on the subject of pensions. Thus No. 40 on the master index shows "Pensions a Year Later," page 16, October.
